Please email scanned copy of this form to the BFA Height Card Team at **heightcard@bfa.email**

To scan a document on **iphone,** use the built-in Files app to access the camera scanner. **Open the Files app**: on your iPhone. **Tap the "Scan Documents"**: option, often found by tapping the three-dot ellipsis icon. **Position the document**: in the camera's view, *holding the camera directly above the document*. The phone will either automatically capture the scan, or you can tap the shutter button to do it yourself. **Tap "Keep Scan"**: and then "Save" to save the document as a PDF in the Files app.

To scan a document on **Android,** use the built-in Google Drive app: Open the app, tap the + (plus) icon, select Scan, *hold the camera directly above the document*. Capture the image by tapping the shutter button, use tools to add pages. Finally, tap Done to name the document and save it as a PDF or JPG.
